Air Freshening

ULV Fogging Machine & Mist 5L x 4 Refills

Price: £460.00 + VAT

Our Fogging machine uses an Ultra Low Volume Nebuliser that creates micro droplets. These droplets are dispersed into the air, float then slowly fall, disinfecting every surface as well as cleaning the air itself, resulting in a hygienically clean space where bacteria, spores, viruses, pollen etc. have been purged from the air. The C100+ ULV cold fogger has a 10M mains power lead and has been redesigned to offer the ultimate in fogging performance (includes 4 Dew 5L Mist). All our products are eco-friendly, natural, hypoallergenic; food, child and pet safe.

ULV Fogging Machine & Mist 5L x 4 Refills

Using the latest in battery technology, the DC20 ULV fogger has been specially designed to produce up to 40 minutes of continuous fogging time with only 3 hours of charge time as standard. Features include a 2L tank, advanced 12V DC motor from LG electronics, two speed control and an adjustable nozzle producing droplet sizes between 5-30 microns. Thanks to its compact design, this fogger is ideal for spraying in smaller spaces including domestic properties as well as food preparation areas, car valets and offices. In addition, the power can be halved reducing noise levels, which is ideal for hospitals, nursing homes, and schools.safe.

Air Freshening

FogPod Pro Max Electrostatic Fogger c/w Mist 5L x 2

The FogPod™ PRO MAX uses electrostatic technology that makes the solution bond to surfaces easier and more effectively.

By giving the solution a positive charge, the droplets from the PRO MAX are then attracted to surfaces due to their negative charge. This creates a stronger level of coverage and allows the solution to reach areas potentially missed by standard fogging. The positive-negative charge causes the solution to 'wrap around' round surfaces giving it better coverage

- Electrostatic Charge - With 7000V electrostatic voltage
- PRO MAX delivers a 360° coverage on all surfaces through electrostatic attraction.
- 4.0 Ah Lithium Battery - Cordless fogger allows you to move without restriction.
- Device requires 1.5 hours for basic charge and 5-6 hours to fully charge.
- 650ml Tank - 3.9 lbs fuselage.
- A tank of fluid allows you to spray up to 2500 square feet with a spray range distance of 8-9.8ft

Cleaning

Superclean (Cleaner & Degreaser) 500ml

Spray liberally onto the surface to be cleaned or degreased, allow some dissolving action to be visible (usually 2-3 minutes) before wiping with an absorbent cloth. If grease is thick, a second application may be required. Can be applied through spraying equipment, pressure cleaning, steam cleaning, immersion soaks, or small utilities such as sponge or mop. Rinse after use on food preparation areas. On carpet stains spray and leave for a couple of minutes then use a dabbing action with a cloth or sponge, as opposed to rubbing. is available at an extra cost.

- Ovens
- Glass (removes water marks)
- Stainless Steel
- Hard Surfaces
- Soft Furnishings (sofas etc.)
- Stain Removal (carpets paintwork etc.)
