

# HELPING NORTHERN IRELANDS HOTELS REOPEN

NIHF Member Offer - No fees until 2021

## RELIANCE ON WIFI

From contactless check in to app driven menu's & guests spending more time in bedrooms than ever before.

A Solid WiFi & Internet connection throughout your hotel will be more critical than ever when you re-open.

## FREE WIFI HEALTHCHECK

We will complete a free WiFi healthcheck of your current WiFi network and Internet connection.

Some hotels can make simple changes to improve their current set up, whilst others will need a new solution.

## NO FEE'S UNTIL 2021

After your healthcheck, We will agree what our commercials will look like and have everything up and running for your hotel re-opening on 20th July 2020.

You won't receive a single bill for WiFi management until January 2021 & most of our solutions are based on a monthly subscription.

## FREE ENERGY AUDIT

We know a lot of energy & carbon reduction.

As part of your WiFi healthcheck we can make recommendations on how to reduce energy & cut your carbon when you re-open your hotel in July.
