

NORTHERN
IRELAND
HOTELS
FEDERATION

NIHF STATEMENT – 1st June 2020

The Northern Ireland Hotels Federation welcomes the announcement from the Executive that hotels will be allowed to open on the 20th July 2020. This is a step forward for the industry and the Federation has been working closely with industry colleagues to ensure that businesses can open in a safe and secure manner. There is more work to be done around the details of opening. We will continue to work in a collaborative manner so that the visitor economy, including the hotel sector, can return to business and help restore the Northern Ireland economy. The safety of our staff and guests will be paramount in this process. Having an agreed date will help us to plan, promote and give businesses the opportunity to assess their viability

The Federation will be working with industry partners, government and tourism agencies to restore the visitor economy and look forward to continuing to contribute the Northern Ireland economy.
